our
Gorge

Gorge Waterway Action Society Membership Application

The Gorge Waterway Action Society is a registered charity dedicated to the preservation and enhancement of the Gorge Waterway. Established in 1990, GWAS has been involved in conservation on the Gorge for nearly three decades.

Our vision is a Waterway that is a place of beauty for human habitation and recreation, and a healthy place for the plants and animals that make it their home.

We facilitate education programs, organize and attend restoration events, and operate the Gorge Waterway Nature House – a public education space in the Gorge Park.

Become a member today – and get free coffee and tea at the Nature House all year long!

Help us build a community of aquatic stewards!

Every donation helps! Your sponsorship will:

- Support the ongoing activities of the Gorge Waterway Nature House, including increased public hours, educational programming, and special events;
- Foster long term conservation of water resources on the Gorge through local restoration projects;
- Promote collaboration between community members, NGOs, municipalities, and First Nations.

Since 2016, we have hired 2 -3 university students each summer to operate the Nature House and assist in restoration projects. In 2018 we have been able to hire 2 more students!

We are fundraising to add more content to the Nature House, such as binoculars and magnifying glasses, and to support our summer university student and volunteer initiatives.

For more information, go to www.Gorge.ca.
